

ENERGY STAR CERTIFICATION

Certification

Triad Corrugated Metal certifies that the metal roof panels it provides for applications listed below and in the colors and finishes listed below are "Eligible Building Envelop Components" that qualify for the tax credit allowed under § 25C by virtue of their listing in the Energy Star program. The panels carry a 40 year warranty at no additional cost for applications in non-corrosive environments.

Qualifying Applications

- Roof Slope >2:12.
- The original use of the panel commences with the taxpayer.
- Panels are installed on the roof of the taxpayer's principal residence.
- The residence is owned and used by the taxpayer at time of installation.
- The residence is located inside the United States.
