

FEATURES & BENEFITS

Review these **FEATURES** of our **STUCCO BUILDING PANELS** to see how each will help reap **BENEFITS** for your next project.

FEATURES

20 GAUGE STEEL

BENEFITS

Very sturdy, G-90 galvanized, corrosion resistant steel, limits "Oil Canning" of the **STUCCO PANELS**

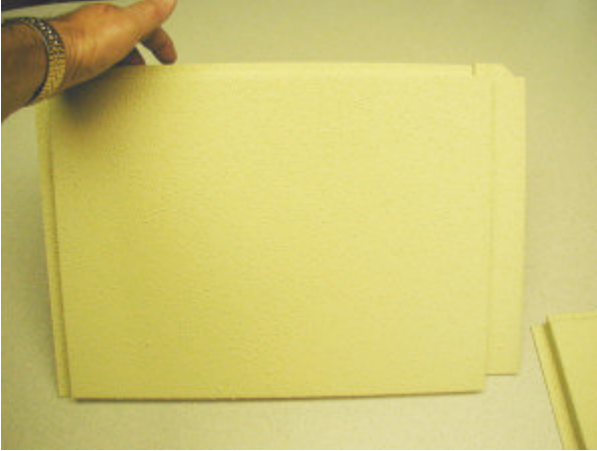

STUCCO FINISH

Stucco Panels exiting bake oven

Factory applied and oven baked **STUCCO COATING** is specially formulated for years of maintenance free service

FLAT SURFACE

Sixteen inch, flat surface of our **STUCCO PANEL** is both unique and a welcome relief from the standard corrugated "R-Panel" appearance of most metal buildings

CONCEALED FASTENER

There are no visible screws or rivets to distract from the flat, unbroken appearance of our **STUCCO PANELS**

1 1/2 inch Screw Flange hides fasteners covered by next panel

STUCCO TRIM

Standard TRIM sections as well as any special trim your project requires is painted with the same finish as our **STUCCO PANELS** for an enhanced professional appearance

STACKABLE PANELS

Normally limit the **STUCCO PANELS** to twenty-five feet in length but our panels can be stacked without trim sections between upper and lower panels to achieve any desired wall height

UNLIMITED COLORS

Will match whatever color you wish at **NO EXTRA CHARGE!**

20 YEAR WARRANTY

STUCCO PANELS carry a full 20 year, non-prorated warranty against material or finish defect
